

Vacancy Project Manager International (Fulltime)

Location Noord-Scharwoude, The Netherlands

The Project Manager has the leading role in the company's international daily operations. You provide support of development activities and project management overview of wind turbine (blade) service and maintenance across the world. The Project Manager provides due diligence reviews of all project related documents, contracts, and field work. An exciting and dynamic role in which you will be responsible for ensuring our company's high reputation in the fast-growing wind industry and contribute to the ongoing evolution of Redak. The position is based in the Redak Head office in the Netherlands.

Who are you?

You're an experienced, motivated, and ambitious individual with eye for detail. You have extensive experience as a Project Manager, and you have the ability to prioritise and resolve multiple issues on multiple projects under strict deadlines. You can manage a team and work collaboratively with all stakeholders.

Your communication, networking, and teamwork skills are exceptional, and you always maintain a professional attitude. You have what it takes to successfully complete projects from start to finish. Do you fit the profile? Then we want you!

Role & Responsibilities

- Plan and prepare all our international projects.
- Secure the successful execution of projects on time by coordinating with team members to make sure that all parties are on track with project requirements, deadlines, and schedules.
- Provide professional reviews, reports, status reports, action lists, and quality assurance throughout the entire project.
- Establish documentation baseline and overall documentation project plan.
- Internal and external progress reporting.
- Manage client satisfaction and stakeholder management.
- Work closely together with the Operations, HSE, and Quality department.
- Participate in the planning, coordinating, and overseeing of tender processes.

Profile

- HBO bachelor's degree in Business Management, Project Management or similar field. Or 8+ years of experience in a project management role.
- Exceptional project management skills; Experience in the field of wind industry is a pre.
- Excellent Dutch and English writing and verbal communication skills.
- Proficient in Microsoft Office and affinity with ICT.
- Self-motivated with a strong work ethic.
- Stress resistant and flexible; Ability to anticipate quickly.

What we offer

We offer an environment where people feel comfortable to share ideas and thoughts and embrace a workplace where all people can thrive and continuously grow. You will become part of a young and dynamic team in a fast-growing industry. A suitable salary and attractive benefits are included.

Are you ready to climb that wind turbine and embark on a journey with us? Email your cover letter and resume to hr@redak.nl.
